

WHITE BEECH VENEER

Latin names: Fagus sylvatica

Commercial Names: (I) Faggio, (F) Hetre, (D) Buche, (E) Haya

Original names: Fo, Fagher, Fajar, Vespul, Faz, Fagu

Mechanical properties: Average resistance to longitudinal compression: 60N/mm^2

Bending strength: 120N/mm^2

Modulus of elasticity: 14.500 N/mm^2

Density: 730kg/m^3 12% MC

Dimensional changes: large

Hardness: medium to good

Texture: medium to fine

Porosity: low.
